INDIVIDUAL CONTRIBUTION STATEMENT

TEAM012

Team: TEAM012 · Member: V V S S N Padmaji Saladi (2025mb26046) · Instructor: Vinaya Sathyanarayana

TEAM012 has one member and this project was completed individually, so all roles below were held by me

Role / artifact	Led by	Notes
Topic selection and product strategy	V V S S N Padmaji Saladi	Topic based on professional experience in retail store operations and DSD receiving
PM artifacts / PRD	V V S S N Padmaji Saladi	PRD-lite, prioritization, roadmap, metrics
UX and workflow	V V S S N Padmaji Saladi	Workflow, screens, trust and HITL design
Data / evaluation	V V S S N Padmaji Saladi	Simulation design, baselines, metrics, thresholds
Prototype / build	V V S S N Padmaji Saladi	Built with AI coding assistance (see AI Collaboration Log)
Business / risk	V V S S N Padmaji Saladi	Economics assumptions, ethics and governance note

How AI was used and how outputs were validated

AI tools (Claude) were used to draft documents and write prototype code from my topic submission and the course packet. I reviewed each document, ensured the updates, re-ran the model scripts, checked every number in the report against the evaluation output, and made the decisions on scope, risk acceptance, economics assumptions and the launch recommendation. Details are in 05_AI_Collaboration_Log.md.
